FINISHES

Powder coating is used extensively for both decorative and protective purposes on Stellar Doors. This significantly reduces the need for maintenance with doors commonly having a life of 20 years or more.

Stellar Doors come in an attractive wide range of powder coat finishes, which provide an industry leading 10 year warranty on surface coatings.

WOOD GRAIN FINISH

The latest range of textured wood grain finishes is available to give Stellar Doors the look and feel of timber.

This is a practical way of incorporating timber style with the durability of aluminium. To find out about the range of wood grain finishes available consult your supplier.

Plymouth

CARE AND MAINTENANCE

Stellar Doors are supplied as a finished product. They require very little maintenance in order to remain looking great for years to come.

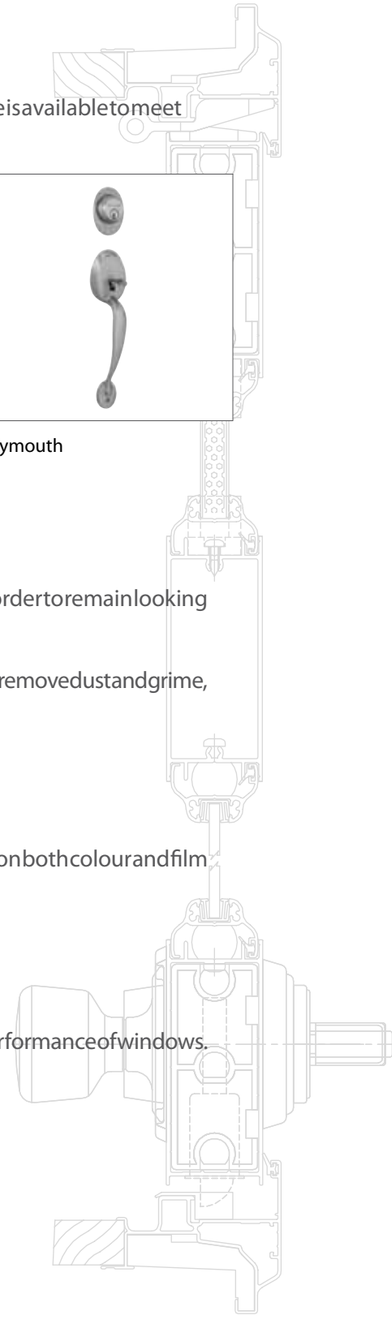
We recommend you wash your door every six months with mild detergent in warm water to remove dust and grime, or more frequently if you live in a coastal location.

WARRANTY

Stellar Doors offer a 5 year warranty on manufactured doors, and also a 10 year warranty on both colour and film integrity of powder coating.

PERFORMANCE

All Stellar Doors have been fully tested and proven to NZS 4211:1985 – specification for performance of windows.



Manufactured by NALCO Architectural Products. Another quality NALCO product.
Telephone 0508 800 755 or visit www.nalco.co.nz for further information.
